Look at the soil, my
friend. The grass is so
green!

This is where
flowers bloom. And
they smell so sweet!

It is where rice and wheat grow.

It is where
potatoes and sweet
potatoes grow.

Soil is where the mud dauber builds its nest.

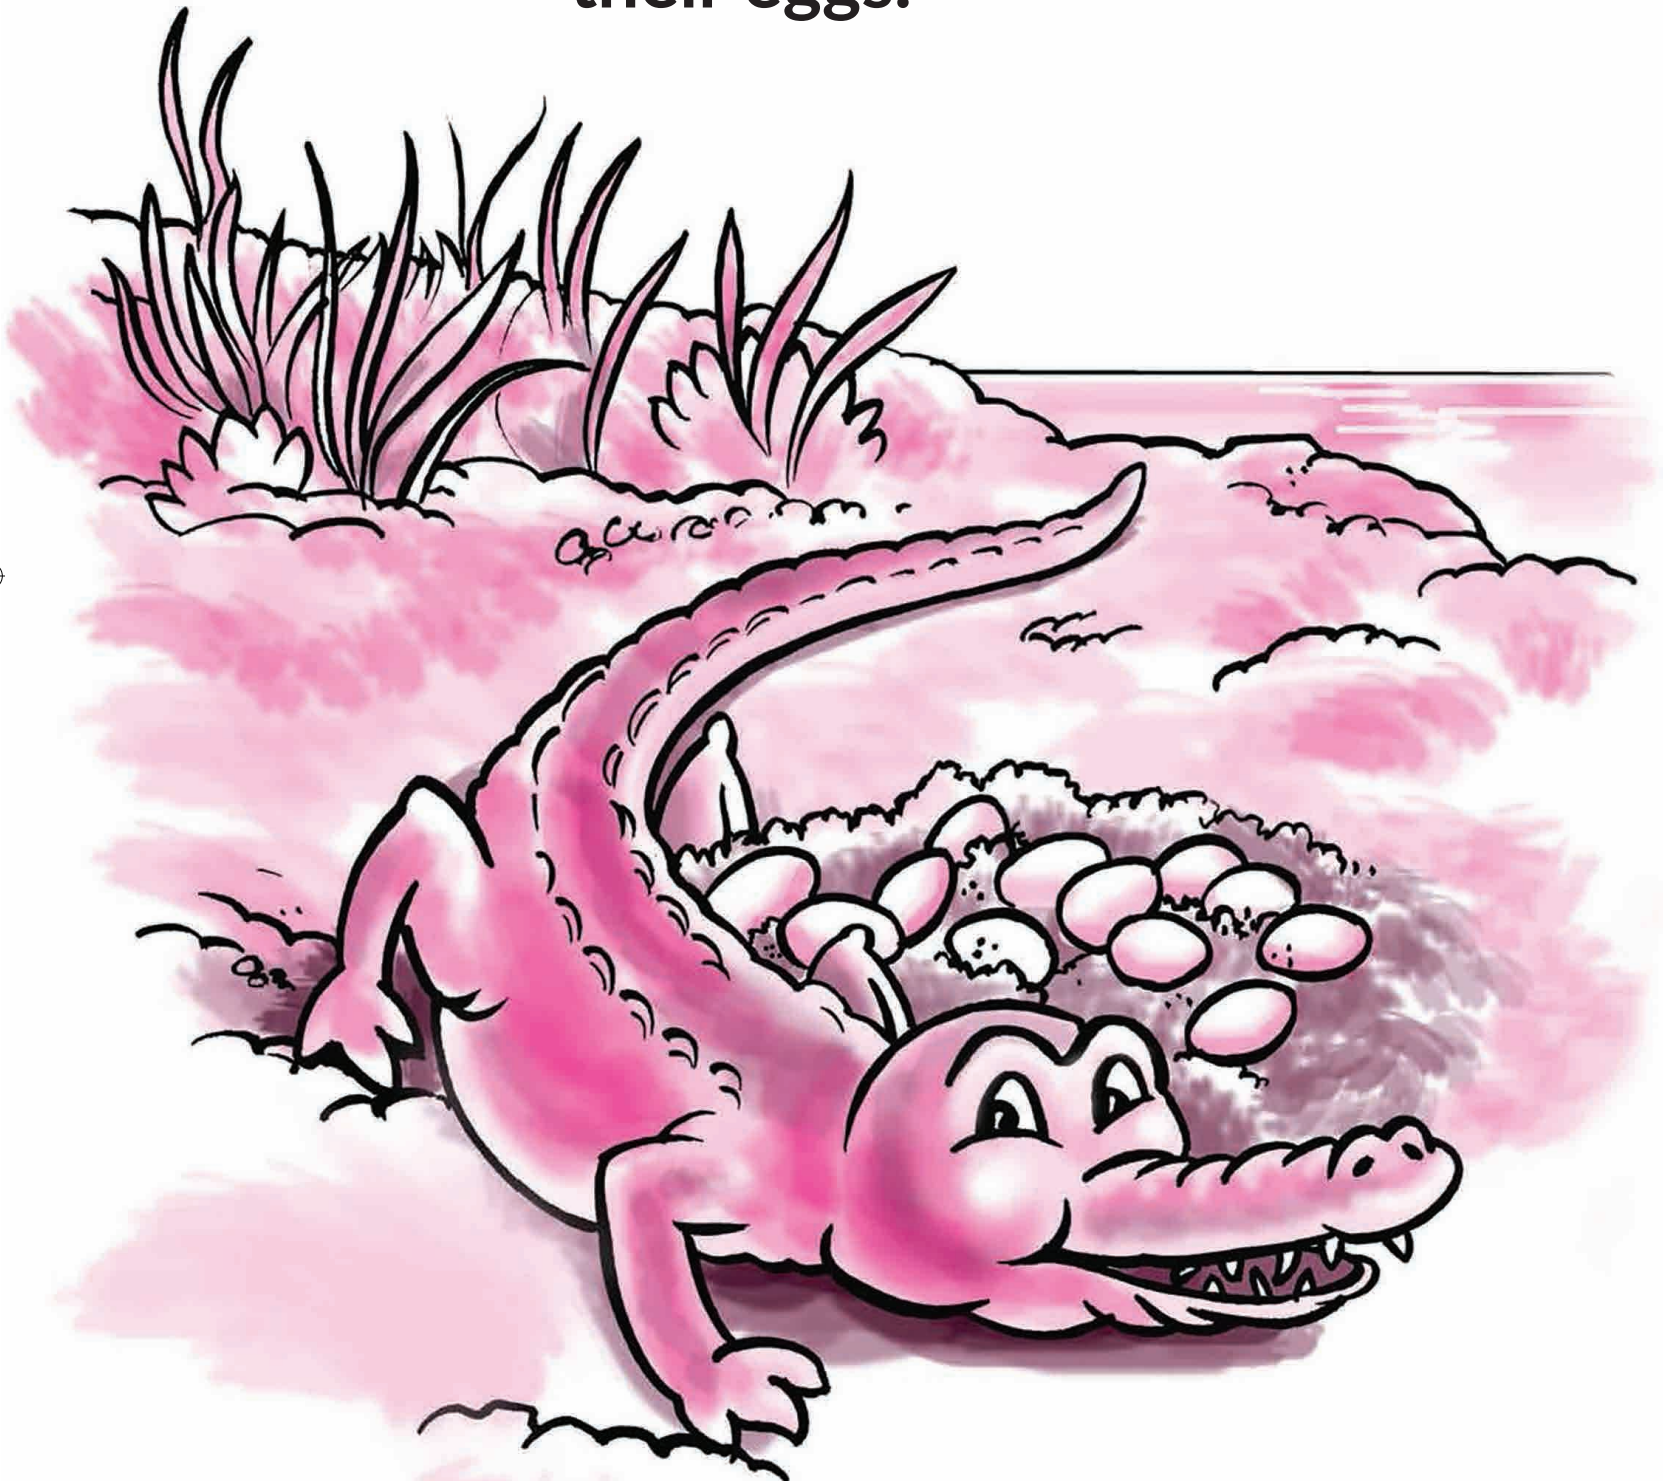

The swallow picks up
the soil with its beak and
builds its nest with it!

It is where
crocodiles lay
their eggs.

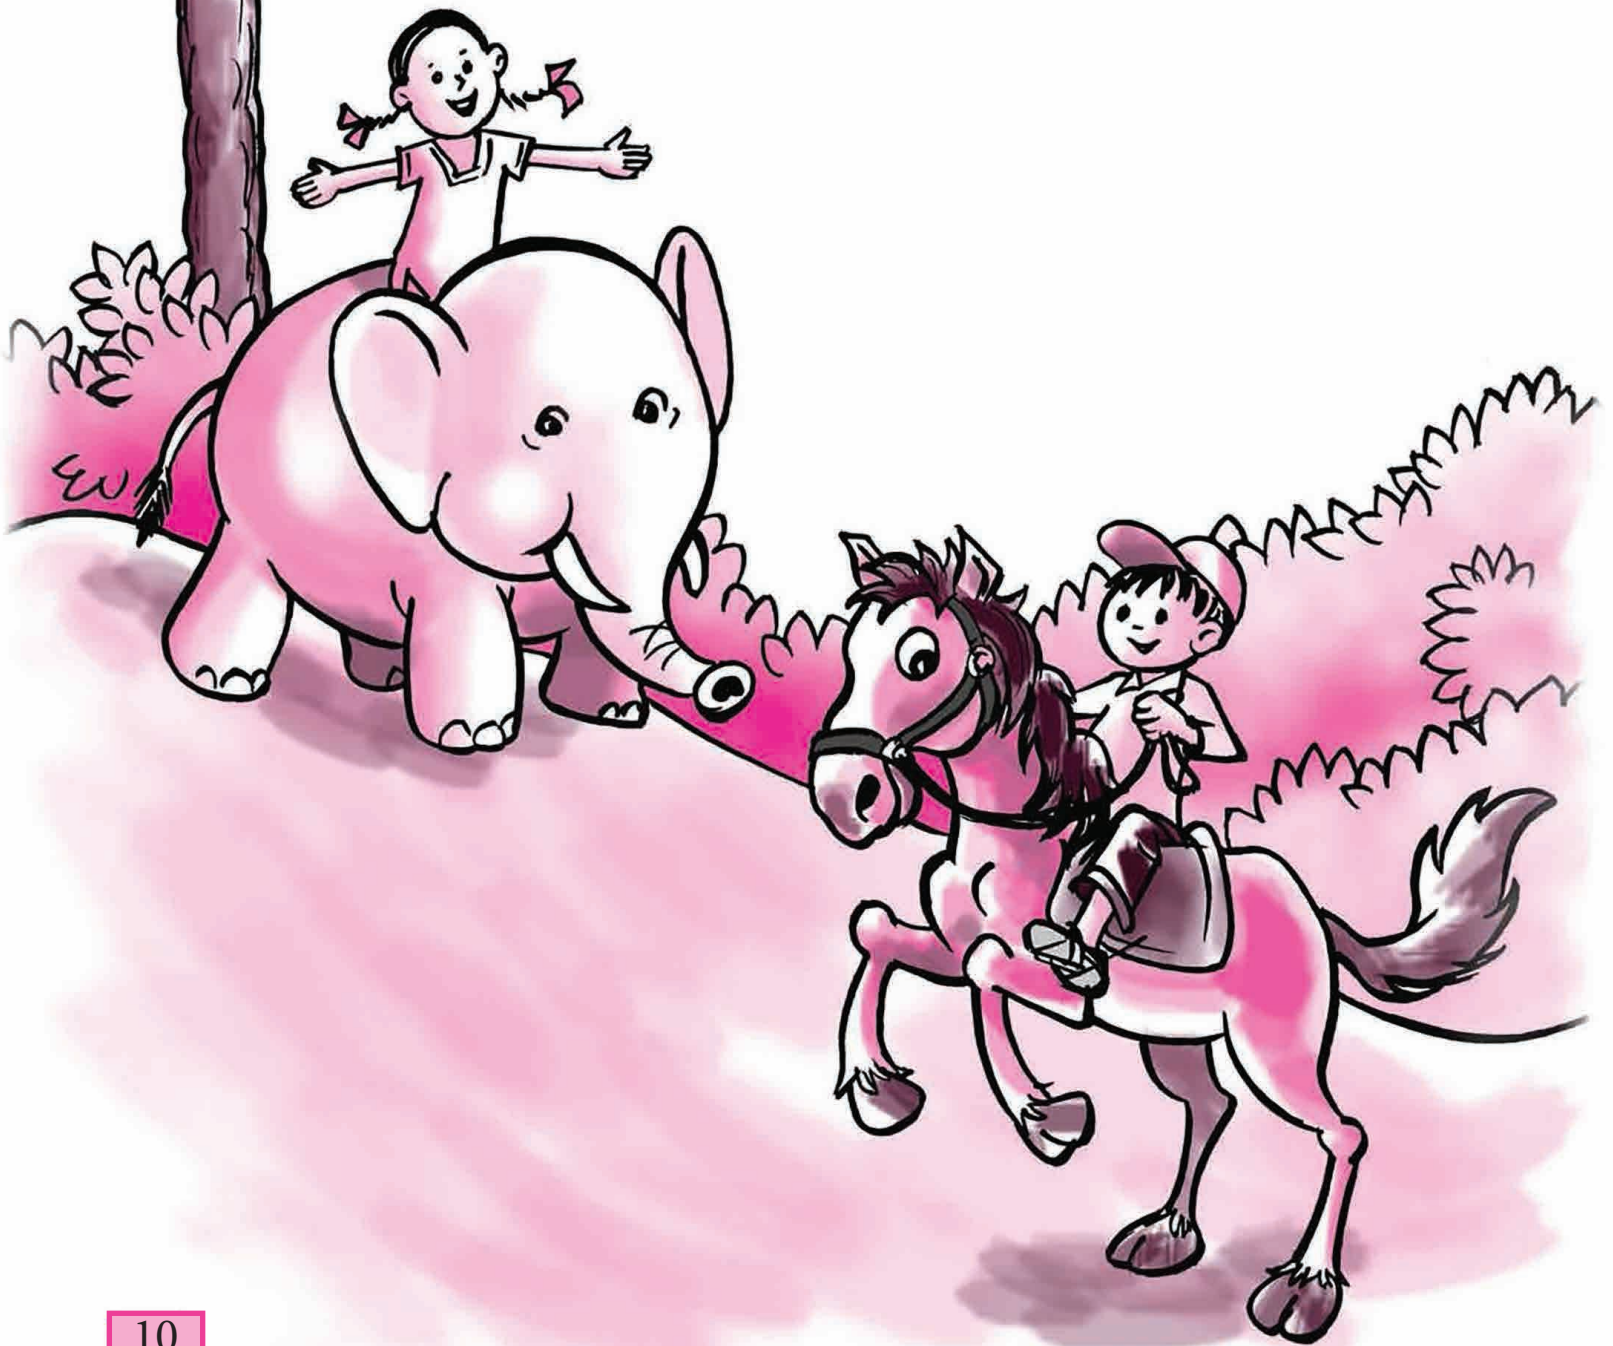

It is where
chameleons give birth to
their young.

Look my friend,
this is where
the horses and
elephants live.

This is where the
day breaks.

This is where we play
and dance! The soil is
our life.
